## BLUE AND WHITE "1965"

Many hours and days have passed on the master clock for members of the Class of 1965. The bell has rung for the final time ending our high school years. To each of us the four years have had a different meaning. For the scholar it meant long hours of diligent study, to the athlete lengthy practice to achieve his goal of victory. As time progresses we will probably reflect upon our high school years as care-free days. The editorial staff of the Blue and White hopes that this classbook can someday bring back memories of the glorious days of "old."

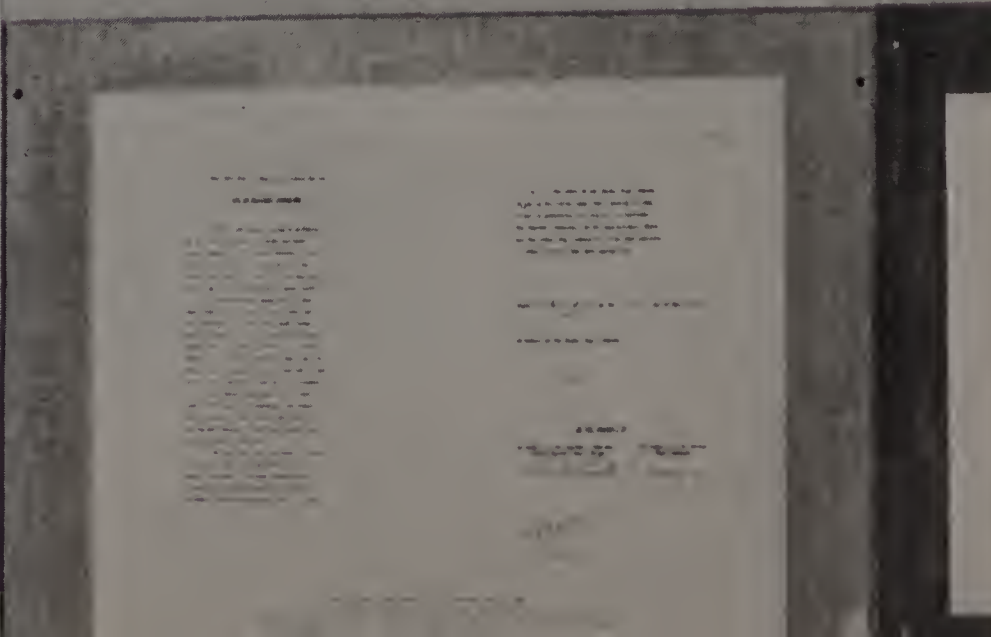

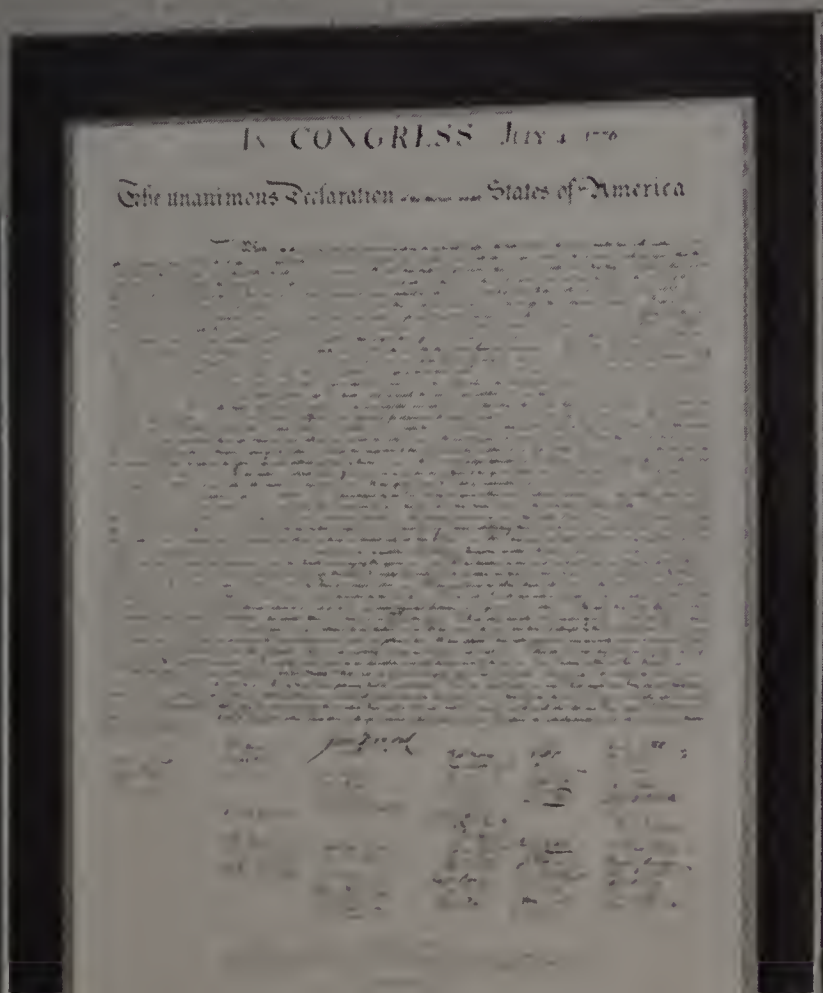

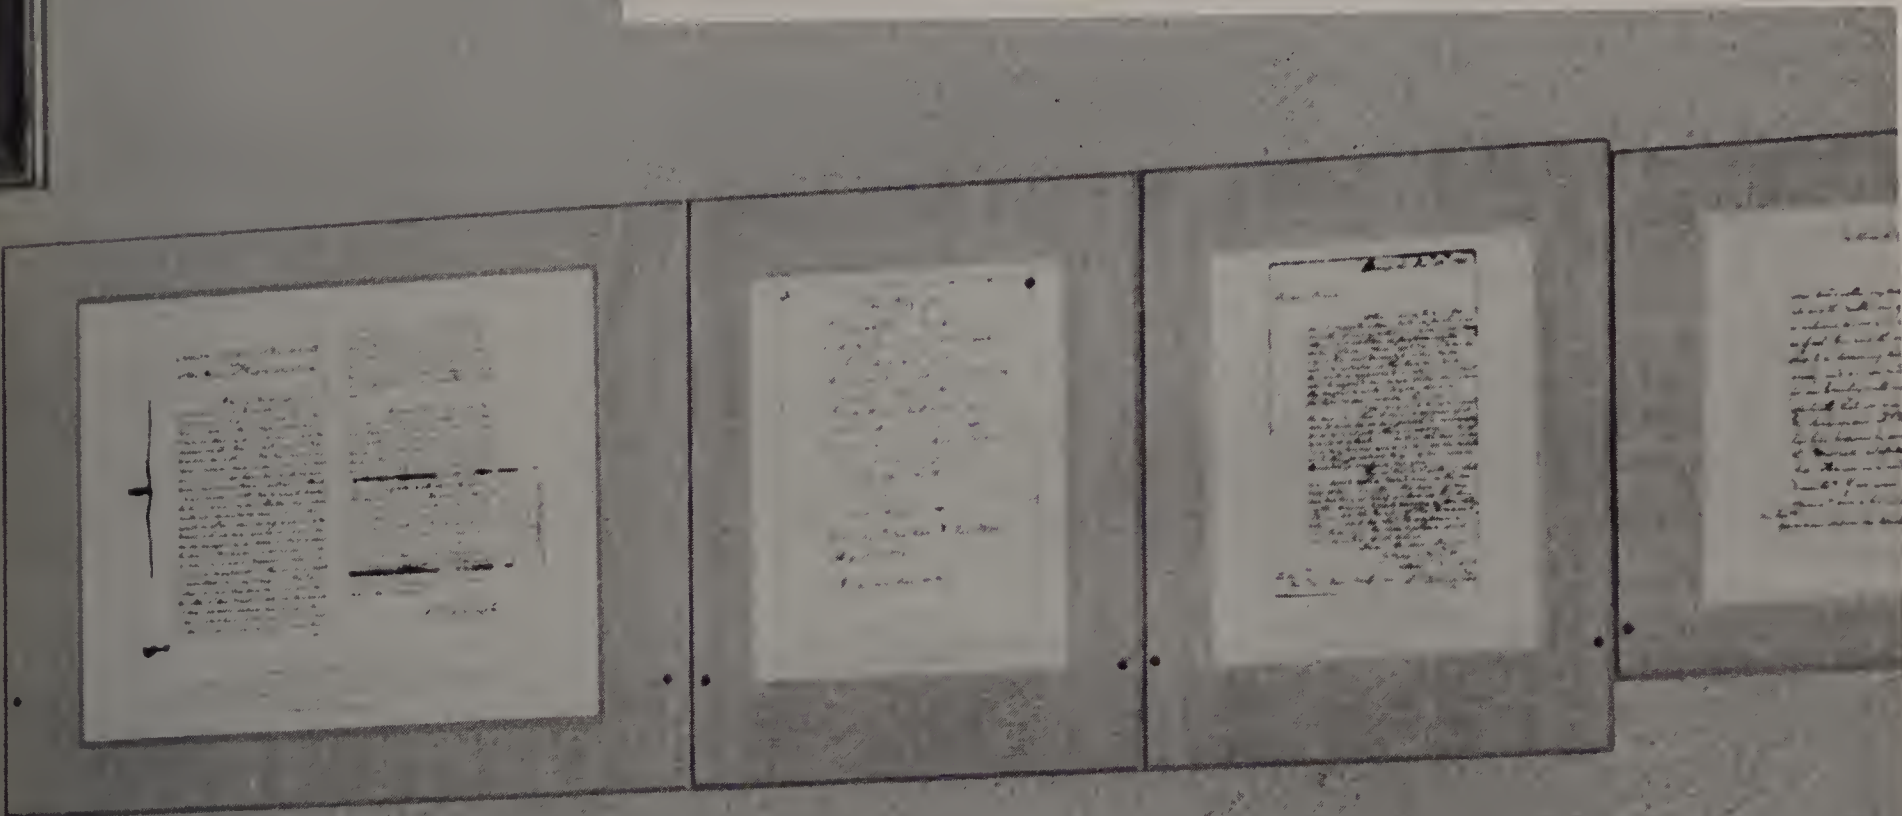

# THE FREEDOM SHRINE

# ADMINISTRATION and FACULTY

The Lawrence High School is staffed by nearly 110 educators dedicated to the task of preparing close to 2700 students for future life. In an effort to accomplish this, a wide variety of subjects is offered so we may best make use of our hours in school. Terminal students are prepared in many diversified fields and college-bound students are placed in a wide variety of institutions of higher learning.

The faculty is comprised of veterans of many years experience as well as recent college graduates. They offer a wide range of teaching techniques and methods. These men and women combine enthusiasm with knowledge of their subject matter in an effort to insure a successful future for their students.

# SENIOR SECTION

## 114th GRADUATION

For the Class of 1965, the classrooms of Lawrence High are closed forever. We are about to take our places in the world as useful citizens. Our time in the classroom and on the athletic fields has been instrumental in preparing us to achieve our selected goals. The trials and tribulations of the past four years will, in all probability, be replaced by problems of much wider scope. Consequently, in the not too distant future, this classbook should bring back memories of carefree days.

## CURRICULUM SECTION

During these years when threats of Communism shake the free world, a great responsibility is handed down to the generation of Americans who will lead our country in the future. It is the task of our educators to enlighten the minds of each students with the knowledge required to sustain a true democracy. This knowledge, coupled with wisdom and devotion to God, represents the basic foundation upon which America is built. If our way of life is to continue, high standards of education must be maintained. A well-educated America will assure the existence of human freedom and liberty forever.

The Lawrence High School offers six major fields of study to its 2700 students. A student may specialize in college preparatory, business, nursing, manual arts or home economics. A general course is also offered to students who do not wish to specialize. Subject matter within these courses is sometimes similar in name; however, different forms and presentations meet the needs of the individual student. English and mathematics of different types are offered to students of all courses. Civics, problems in democracy, economics, United States, ancient, medieval and modern world history, available in varying degrees, comprise the Social Studies curriculum. Physical education and choral music are required of all students to insure complete development of the person both physically and mentally. It is through such a diversified curriculum that the teachers and administrators can develop both the college-bound and terminal student for latter life.

Homogeneous grouping enables students to compete with others of similar ability and allows accelerated courses to be offered for college preparatory students. Standards have been raised and modern methods and equipment adopted in all areas of study. This insures that students of the Lawrence High School are in a position to compete on an equal basis for admission to leading colleges and universities.

The science program has undergone vast changes in recent years. National Science Foundation grants have made it possible to equip laboratories with the most modern equipment possible. Facilities are available in chemistry, physics, biology, botany and physiology. Several faculty members have used national and industrial grants to attend institutes throughout the country thereby keeping abreast of the latest in science teaching methods as well as developments in their individual subject matter areas.

For students interested in foreign languages, the Lawrence High School offers six languages to students of all courses. Latin, French, German, Spanish, Russian and Italian cover a wide scope of linguistic opportunities. Tape recorders, records and other modern equipment allow the teacher to present varied instructional methods.

Approximately 600 students are enrolled in the business education program. The business department is subdivided into two major categories; accounting and bookkeeping. The students study stenography, bookkeeping, and typing as well as use of all types of business machines. Recently, this department has incorporated instruction on IBM key punch machines into the overall curriculum thus insuring that students will find a place in our rapidly changing world. These students are readily employed by local firms and many continue their education at schools of business and colleges.

LOCATING AN ITALIAN CITY

Mr. Ventura, Sandra Cataldo, Susan Ventrillo

The Lawrence High School was founded 116 years ago. It moved to its present location in 1900 when the "old building" was constructed at the corner of Lawrence and Haverhill streets. The rising population of the city and subsequent increasing enrollment soon taxed the capacity of the building and in 1924 the James D. Horne annex was opened to provide adequate classroom space. While there have been no additional buildings constructed since that time, renovations have kept pace with the changing times.

Science laboratories have been remodeled and an audio-visual room constructed to insure up-to-date facilities for those in attendance. Equipment has also been constantly improved. Today, the teachers have every available teaching aid from motion pictures to closed circuit television at their disposal. The teachers and administrators realize that it is only through such modernization programs that the student can compete on an equal basis for college or occupational positions with pupils of other schools.

With educational requirements becoming of greater importance each year, it is imperative that all qualified students gain a high school diploma. Terminal students are offered three major areas of study; general, manual arts, and home economics. In addition to allowing specialization in various fields, these programs provide the student with a knowledge of English, mathematics, history, science, and foreign languages to develop an overall educational awareness.

This program is also instrumental in keeping the drop-out level in the city of Lawrence to the minimum and providing well-trained citizens. It is through such a broad program offering to terminal students that the Lawrence High School is able to achieve its goal of education for all.

## MANUAL ARTS

The Manual Arts department attempts to familiarize the student interested in the trades with the types of employment available to him. Instruction is offered in woodworking, electricity, printing, sheet metal, auto mechanics, forging and machine shop. The student is introduced to these trades during his first two years. He may then specialize if he chooses to do so. By attending classes in English, mathematics and social studies as well as mechanical drawing, the pupil obtains a diversified education.

With the need for specialized training increasing each year, the student who has obtained a working knowledge of an occupation is in an excellent position to obtain a highly desired position upon graduation.

## HOME ECONOMICS

The Home Economics department provides training for girls in the household arts. The course is subdivided into the major categories of cooking and sewing with one half year training in each. This course is also available, on an elective basis, for all students. It provides excellent training for girls interested in the domestic sciences.

## PHYSICAL EDUCATION

Physical education is a required course for both boys and girls. All are required to pass a physical fitness examination in accordance with the nationwide physical fitness program. This program enables students to develop themselves physically as well as mentally and plays a very important part in the overall curriculum of the school.

## EXTRA-CURRICULAR ACTIVITIES SECTION

Although a school's primary interest is the development of the mind, it also has a responsibility to send graduates into society who are well rounded individuals. Extra-curricular activities afford an excellent opportunity to accomplish this. The students who are active in these organizations gain insight into the political and social obligations which will be a major part of their adult lives.

The organizations are many and diversified. The active pupils have an opportunity to enhance themselves physically, culturally, socially and intellectually through participation in these activities. Pupils who have enjoyed the companionship offered during the projects conducted by these organizations are likely to be active members of their community in later life.

MIDDLE ROW: Ann Lacey, Ann Gentile, Linda Sheehan, Marie Loughlin, Wilma Mahoney, Erica Shatz, Arva Holt, Betty Welding. FIRST ROW: John Pattavina, Bert Binder, Patrick Shine, Thomas Ruffen, Paul Rappaport, Anthony LoBello.

## THE LAWRENCIAN

Published monthly from October to May on the Lawrence High School Press, the student newspaper is now in its thirty-ninth year of existence. One hundred percent undergraduate circulation is maintained without advertising with the aid of a very modest annual assessment. The advanced class in the print shop handles the mechanics of publication. Mr. Andrew J. Maynihan, head of the English department, has served as adviser to the editorial staff for nine years.

#### FRENCH CLUB OFFICERS

Kathy Martino, Faith Kenney, Linda Ferrulo, Anthony LoBello, Ann Louise Lacey, Donna Mazzotta.

## FRENCH CLUB

Le Cercle Francais, sponsored by Miss M. Madelyn Mahoney, concerns itself with French history, literature, music and art. Although anyone who has passed beyond the first course may join, only students of French 3 can serve as officers. In order that the members may become proficient conversationalists, proceedings are conducted almost entirely in French. Nominal dues defray the cost of books and periodicals devoted to the educational aspects of Gallic culture.

#### MATH CLUB OFFICERS

David Rendler, Thomas Ruffen, Barry Weinerman, Stephen Foss.

## MATH CLUB

Limited to upperclassmen, the Math Club takes up intriguing problems which are not usually discussed during the regular school periods. The sponsor, Mr. Edward F. Praetz, head of the Mathematics Department, spend a great deal of time during the winter months in preparation for the College Entrance Examinations.

Activity is climaxed by participating in the annual mathematics contest which is conducted by the University of Massachusetts in May. Lawrence High has won many honors in this competition.

### LATIN CLUB OFFICERS

Catherine Cultrera, Eileen Ingalls, Sharon Sacchetti, Eileen Dinan, Erica Shatz.

## LATIN CLUB

Biweekly meetings of Societas Latinum focus attention on the customs and culture of ancient Rome. By gaining a knowledge of classical influences, participants at these after-school sessions can appreciate the indebtedness of modern society to the glorious civilizations of the past. Membership is open to all students who have progressed beyond the first year's course in the language.

Outstanding projects of the club include the publication of a Latin newspaper called *Tempora Romana* and the production of a Latin play. Mr. Bernard J. Kiernan, head of the department, is the moderator of the group.

ITALIAN FOLK DANCE

## ITALIAN CLUB

Il Circolo Italiano limits membership to students of Italian 3. Under direction of Mr. Blase R. Ventura, head the Modern Languages Department, the club has built up a sizeable library and record collection. At the bi-weekly meetings, special attention is centered on the culture and customs of Italy. Extra preparation for the College Entrance Examinations is provided during the winter months.

## GIRLS' DEBATING SOCIETY

Under the sponsorship of Miss Mary Rita O'Connor, the Girls' Debating Society has become the largest club in the Lawrence High School. Any girl can become a member by attending the Monday night meetings at seven o'clock in the Assembly Hall. In fact, this is one of the few organizations that is open to freshmen and sophomores as well as upperclassmen. Poise, proper diction and cleverness of speech are the three fundamental aims of the group. At each weekly debate, a best speaker is named. The Mary A. Driscoll Memorial Prize is given to the outstanding orator of the year.

## SPEAKERS' CLUB

Limited to seniors, the Speakers' Club assembles in the Study Hall on the first and third Wednesdays of each month. Under the guidance of Miss Marian C. Shine as moderator, the membership roll runs close to one hundred. Many find the club a means of self-expression, while others join for the social and entertainment values of the well-attended sessions.

The Speakers' Club provides programs for the observance of all holidays by the student body. Tape recordings made in advance are played over the sound system on such occasions.

## BIOLOGY CLUB

Sponsored by Mr. John E. Harrington, the head of the Science Department, the Biology Club meets twice a month to discuss scientific problems outside the scope of the regular classroom curriculum. The general public can see the amount of interest that the group has generated by visiting the annual Science Fair, which displays many research projects that the students are pursuing on their own initiative. Field trips to museums and college laboratories highlight the school year.

MR. DAVID MILLAR CONDUCTS ART CLUB WORKSHOP

## ART CLUB

Membership in the Art Club is limited to the advanced classes taught by Mr. David Millar, who has been its sponsor for twenty-six years. Meetings are scheduled after school on alternate Wednesdays in Room 404.

Talented members are in constant demand to produce decorations for all extra-curricular functions. Their most elaborate undertaking is that of making over the gymnasium for the annual Junior-Senior Prom. Participation in several contests offers the artists an opportunity to demonstrate their skills to the public.

## *Athletics Section*

The athletic teams of the Lawrence High School play an important role in the over-all program of the school. In recent years, the athletic program, under Director Ralph J. Wolfendale, has been involved in an expansion program. 1964 and 1965 have seen the addition of basketball and softball to girls' athletics as well as wrestling and weight lifting to the boys' program. 1965 and 1966 brings the promise of hockey already started on an informal basis. With the broadening of the program, it is possible for a greater number of students to take part.

Through athletics the students gains a realization of teamwork from experience, fair play, and the rewards of hard work on the practice field.

The fall of 1964 was a rebuilding season for Coach Gerry Callagy's Lancers. Before the team had taken the field for its first game, injuries had ruled regular ends Ralph Woekel and Joe Ponte out for the season. The team was finally built around veterans Sam Aliano and co-captains Bill Laliberty and Louis Polizotti. Bright spots in the otherwise dull campaign for Lancer fans were few. One came on a rainswept field at Beverly when the young Lancers gave the highly touted Panthers a ding-dong battle before superior members wore them down. Another occurred in November, when for 47 minutes the Blue and White pushed the Hillies all over the gridiron only to lose in the waning seconds.

Despite its losing record, the team showed flashes of brilliance and with only two starters graduating, the fall of 1965 should provide plenty of excitement for Lawrence High football fans.

## VARSITY BASKETBALL

Led by Captain Dennis Levesque, the 64-65 edition of Lawrence High Hoopsters surprised the most seasoned fans. With only one starter, Bill Laliberte, possessing rebounding height, the Blue and White were in the thick of the battle for the Essex County title and qualified for the "Tech" for the second consecutive year.

With Laliberte's strong rebounding and Levesque and Silverwatch scoring, the Lancers pulled off several major upsets during the campaign. For the second year in a row, they managed to defeat Central Catholic, and their upset victory over Lynn English knocked the Bulldogs out of the county title race.

Captain Dennis Levesque was selected on many all-opponent and all-scholastic squads and his total of 519 points gave him the highest per game average ever in the Greater Lawrence area.

## VARSITY BASEBALL

Coach William Regan's 1964 baseball team compiled a very creditable 12 and 7 record during their second season at Mark Devlin field at Memorial Stadium. Led by the hitting of Captain Bob Hilgendorf and their baseman, Walter Burns, the Lancers were shut out only twice during the season. Sophomore Fred Dezan, a strong-armed southpaw, proved a big asset in the pitching department. Dezan's development along with veterans Stephen Campagnone, Thomas McGowan and Kevin Wolfendale gave the Blue and White a quartet of excellent twirlers.

The '65 season should be interesting as Coach Regan and Captain Tom McGowan will be forced to rebuild the entire squad due to graduation.

## GIRLS' BASKETBALL

For the first time in the history of the Lawrence High School, a girls' basketball team represented the school in inter-scholastic competition. Coached by Mrs. Ann Furneaux of the Physical Education Department, the team proved a worthwhile supplement to the girls' program. Both junior varsity and varsity squads were organized and more than 20 girls were able to participate in games with other schools.

Girls softball is now under serious consideration in an effort to expand the athletic program for the "weaker" sex.

## GREG KENT LEADS TRACKSTERS

Lead by Greg Kent the Lawrence High school track team experienced moderate success during the 64-65 season. Kent continued to turn in record breaking performances throughout the county. The junior class distance runner was undefeated in dual meet competition both in cross-county and indoor meets. Kent also brought further fame to the school by placing third in the National Interscholastic meet at Madison Square Garden in New York City.

Al Decocq, Armand Houle, Glenn Keating and Elliot Farnsworth also were consistent point scorers in their events. Coach Ernie Perry expressed the hope that the outdoor team with plenty of training facilities available will provide plenty of tough competition for members of the county track loop.

# ACKNOWLEDGEMENTS

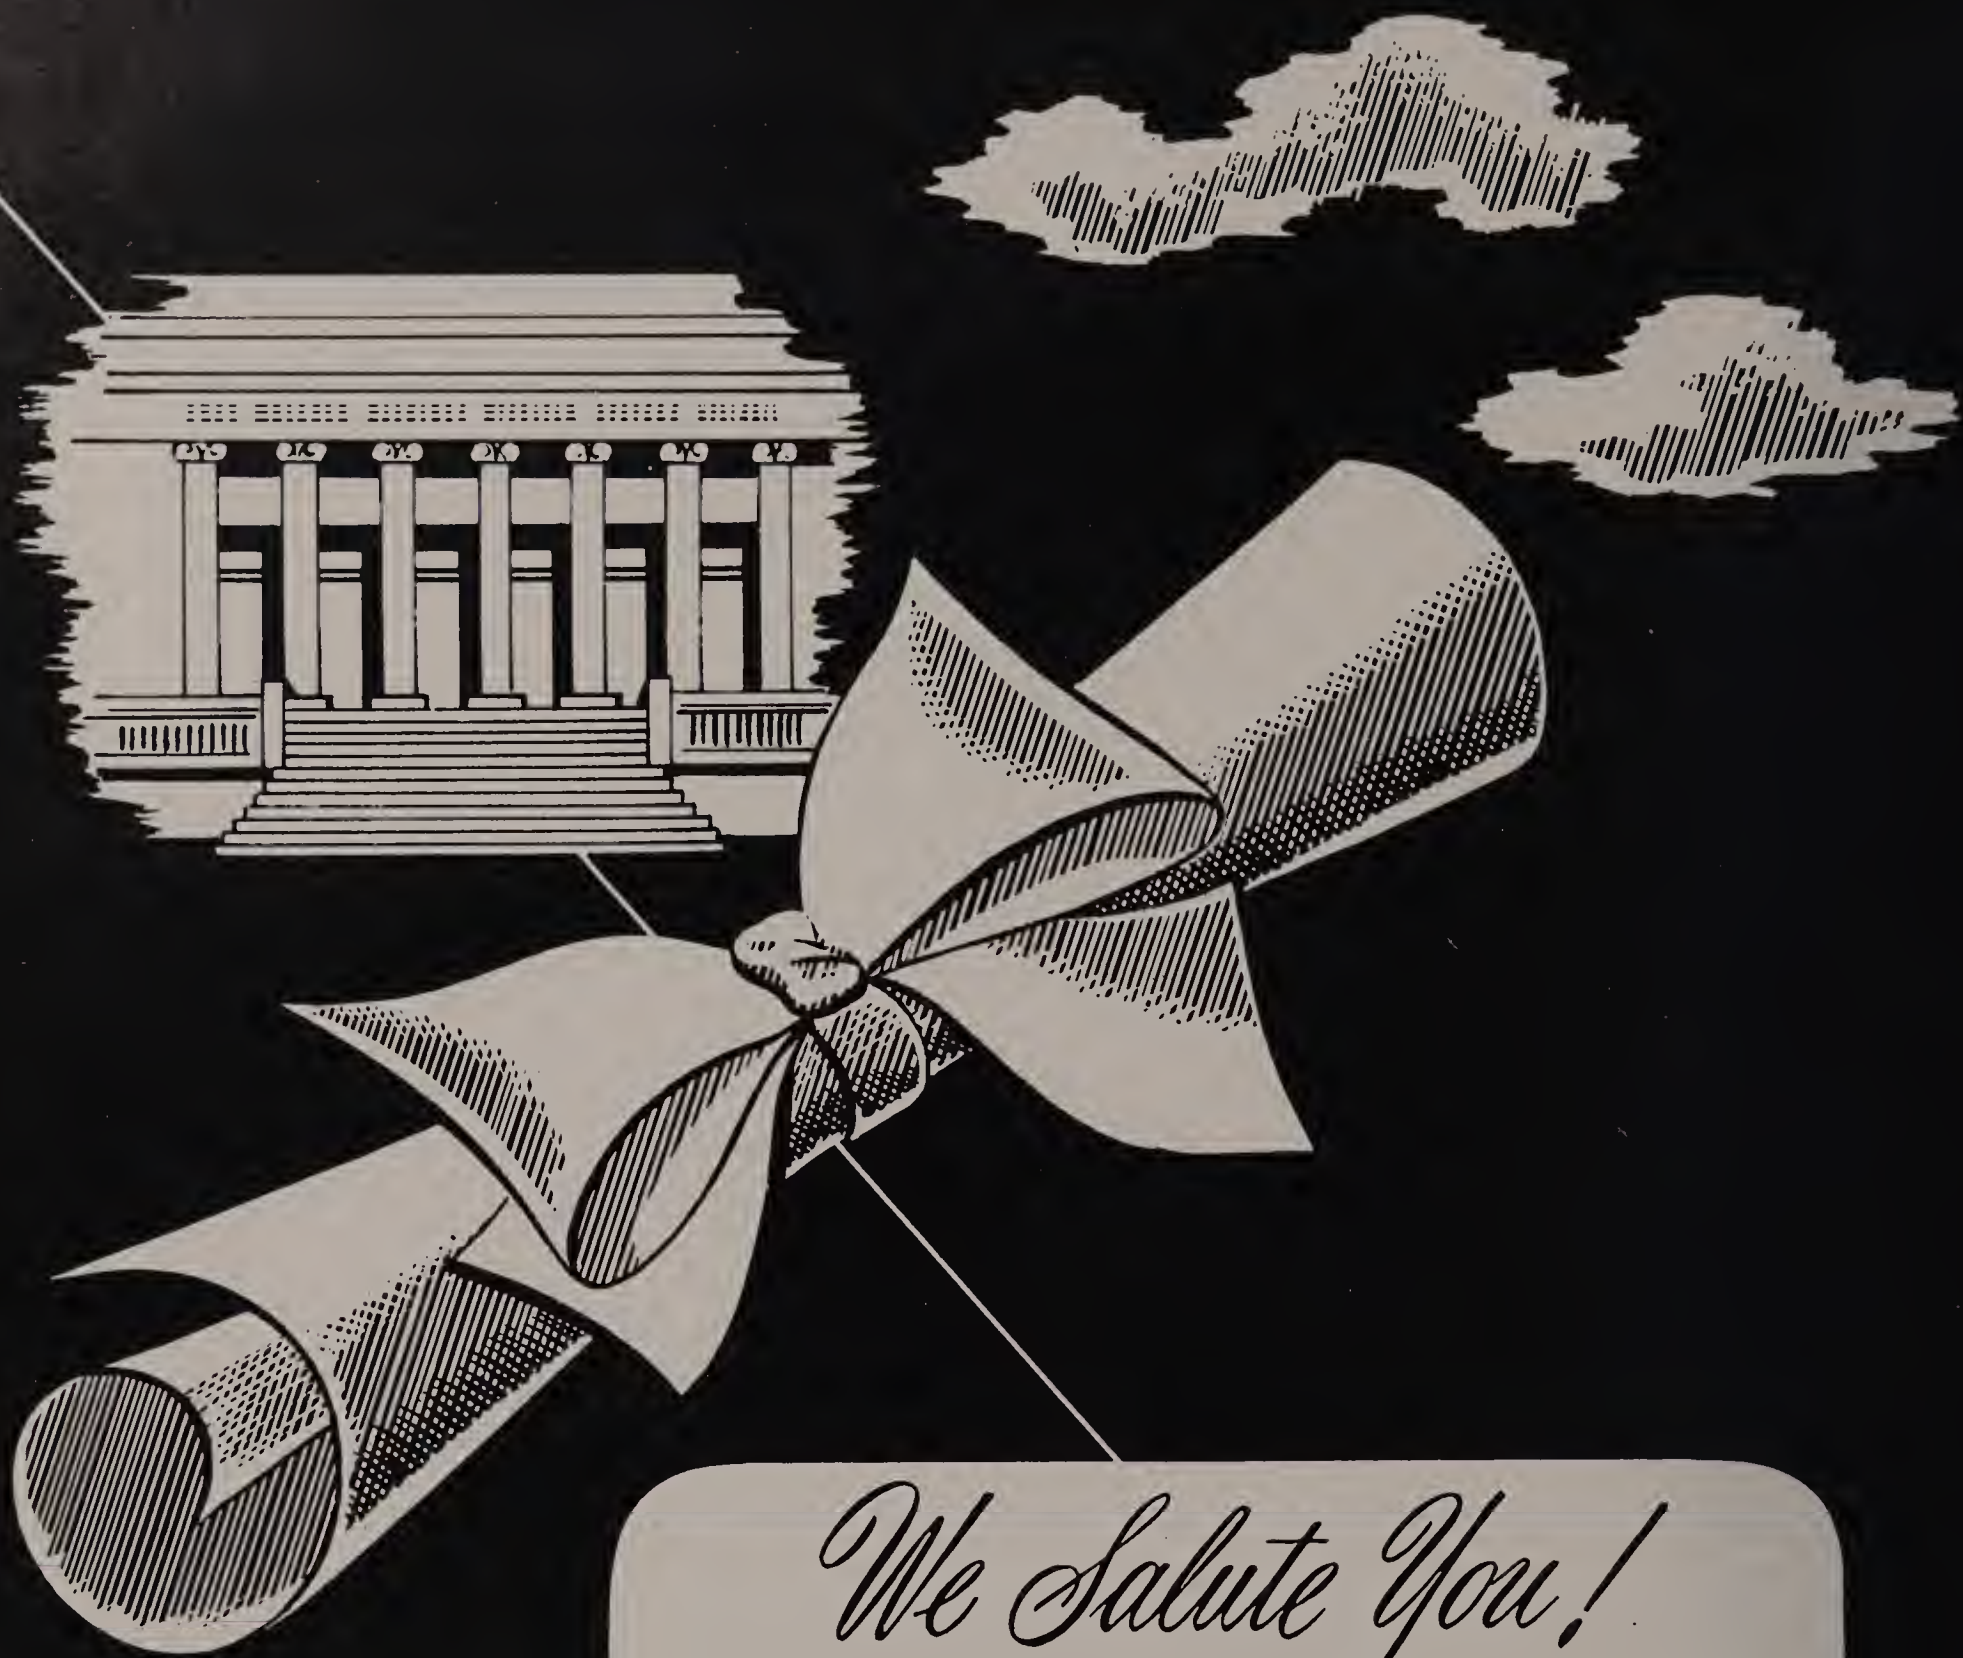

The class of 1965 thanks Headmaster Daniel F. Sullivan and the faculty for their assistance in the preparation of this classbook.

Photographic assignments for the book were handled by Mrs. Madeline Wood of Loring Studios' Lawrence Office. Mr. Robert C. Moore of T. O'Toole and Sons offered many valuable suggestions on the layout of the book. With the aid of the above people and the encouragement of Faculty Advisor, James Walsh, the staff was able to accomplish their objective.

No list of acknowledgements would be complete without a grateful thanks to the merchants of Lawrence whose generous response to our advertising campaign made our book a financial success.

## *We Salute You!*

Congratulations and the best of luck! We at Loring are proud of the part we have had in helping to make your classbook a permanent reminder of your school years, recording with photographs one of the happiest and most exciting times of your life! We hope that, just as you have chosen us as your class photographer, you will continue to think of Loring Studios when you want photographs to help you remember other momentous days to come! When you choose Loring portraits, you are sure of the finest craftsmanship at the most moderate prices!
